

# FANCY DRESS COSTUME

- L** TOTAL TIME NEEDED: AFTERNOON OR EVENING  
**E** DIFFICULTY: EASY

## WHAT YOU'LL NEED

**Black craft foam**  
(two 30 x 45cm sheets)

**White craft foam**  
(one 30 x 45cm sheet)

**Duct tape**

**Hook-on bow tie with adjustable band** (can be found at a costume shop)

**Yellow craft foam**  
(one 20 x 30cm sheet)

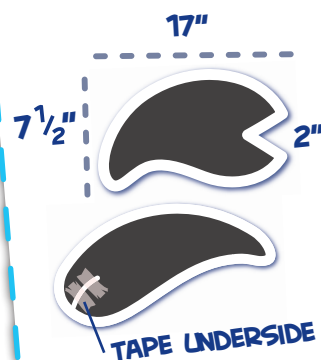

**Double-sided foam mounting tape**

**Black hooded sweatshirt**

**Black jogging trousers**

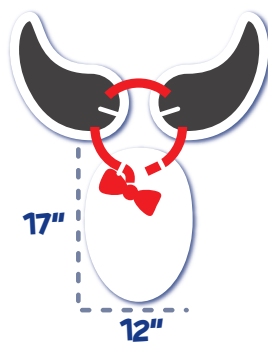

Easy-to-find basics like a hooded sweatshirt and jogging trousers are the starting points for this fun costume. And a clever notch at each shoulder allows this penguin's wings to lie just right.

The measurements in these instructions will make an adult penguin costume, and will need to be reduced to make the equivalent costume for a child.

### STEP 1:

Cut 2 wings and a belly from craft foam. You can download these templates for all the penguin pieces. Cut a triangle from the top of each wing, then tape it closed with the duct tape; this creates a shape that hugs the shoulder.

### STEP 2:

Cut slits and thread the bow tie through them.

**STEP 3:**

Cut out the beak, two feet, and four circles for the eyes from the craft foam. Fold the beak in half lengthwise, then use double-sided foam tape inside the point to secure the fold.

**STEP 4:**

Tape the small circles onto the big ones.

**STEP 5:**

Attach the beak and eyes to the sweatshirt hood and the feet to your shoes with double-sided foam tape. Secure the bow tie around your neck and adjust it to fit.
